Three Reasons to Add QiVantage to Your Treatment Arsenal

As a trainer, you already know all the standard treatments for sports injuries. So we won't waste your time re-hashing the R.I.C.E. method or the pros and cons of hydrotherapy. We'll cut to the chase and reveal the added benefits that using QiVantage Recovery Products can bring to your training business.

As you read this article, you'll find that QiVantage products can help you:

- get better results...faster
- get better results...without extra work on your part
- improve your reputation (because you're getting better results)
- increase the profitability of training sessions with individual clients

QiVantage Recovery Products can do all this and more to help you improve your business.

Why You Should Use QiVantage...

We've got three great reasons why it makes complete sense to include QiVantage Recovery Products as a standard weapon in your injury treatment arsenal.

REASON #1: You Don't Have to Change Anything

According to the National Center for Complementary and Alternative Medicine, **"Complementary medicine is used together with conventional medicine."**

QiVantage Recovery Wraps, creams and other products are intended to complement the traditional

injury recovery treatments you are already using. You don't have to change what you do now. Just add QiVantage Recovery Products to your normal treatment regimens to get better results faster.

REASON #2: QiVantage Formulas are Time Proven and GUARANTEED

A thousand years ago, many of our remarkable QiVantage formulas were considered national secrets. Our herbal formulas originated in Asia and were used anciently to give the royal armies a competitive advantage over their enemies.

Imagine being in control of a massive army that could march for miles all day long without having sore feet...an army that could recover from injuries *faster* than their enemies! With such an army, you could easily maintain power and defeat your foes.

Now picture athletes with the same capabilities...

Don't think it's possible? Take our challenge! Use our QiVantage Recovery Wraps on your clients. If you don't see a noticeable change in your results... if the injuries you treat don't heal *faster* than usual... we'll buy it all back from you...guaranteed!

REASON #3: It's the Secret Weapon Used by Many Athletes

We wouldn't be very smart to guarantee our products if they didn't really work. And to show you how well they do work, here are a few words from our clients:

"WOW [the Recovery Wrap] was great. I felt great the day after!!!! I won both the 60 m and the 200 m dash!!!!!! LOL I am now a 9-time ECAC champ and I am soooooooooo excited. I'm off to Fayetteville,

"I was up for a miracle...I of course was not hopeful to the extreme injury with my high upper inner thigh pull that went down into the back of the muscles of my leg...I ordered the recovery wrap I was immediate in using it with a need for it to work! I injured myself 5 days earlier - the next 24 hours of wearing the wrap I was confident...late on the 2nd day there was some signs of it working - the next morning I could not believe the flexibility I had in the leg as well my energy and happiness! I am walking with hardly any pain of course now I just need to go through the motions of making it completely correct...this stuff was my miracle!"

– Doreen Stine

We can't name names, but we can tell you that players on the NFL championship teams, NBA all-stars, NHL players and high level college athletes are using it to recover faster. Give your patients a secret weapon for speeding recovery.
